

Persona 4 — Kenji — *International · Visa-Constrained*

Background	MS Computer Science student, graduating. OPT visa—needs H-1B sponsorship within 1 year.
Skills	Python, C++, deep learning (PyTorch), NLP, computer vision. Published research.
Target Roles	Research Scientist, ML Engineer, Applied Scientist, AI Engineer
Preferences	US only. Salary $\geq$ \$120K. Prefers known H-1B sponsors (large tech, research labs).
Dealbreakers	No contract/temp roles (visa incompatible). No companies that don't sponsor.
